## FOCUS DILIGENCE CONSISTENCY

### Consistent Performance in Campus Placement :

AOT's teaching-learning process, examination system and training for improvement of placement quotient make our students hardworking and motivated, and thus enable them to achieve right placement by their own merit. At Academy of Technology, placement assistance is not an isolated event, it is a lasting commitment. Our endeavor is to provide maximum possible number of campus interview opportunities to the students with equal emphasis on IT and Core engineering placement and prolonged placement support even after graduation and we have been successful in this mission from our very 1st batch.

AOT has been accredited by Capgemini, Cyient, Tata Consultancy Services, Tech Mahindra and Wipro Technologies for campus placement. In the last 3 years, an enviable percentage of AOT's students have been recruited by more than 100 renowned corporate houses during campus placement. With 91.45% placement offer in 2019 and 103.61% placement offer in 2020, our students have proven to be consistent performers. Even in this year 2021, AOT's students, eligible for campus interview have already attained 88.42% placement offer till now.

In 2020, Academy of Technology has received Certificate of Appreciation from **TATA CONSULTANCY SERVICES** (  ) in recognition of an exemplary partnership and collaboration – and only very few institutes in India have achieved so.

## PLACEMENT @ 2021

AOT continues to redefine success. This year our students have already achieved 88.42% placement offer (till date) and the placement graph is expected to rise since many more companies are scheduled to visit the campus in forthcoming months.

And this is not a one-time fluke, but an achievement that occurs consistently year after year. Equipped with comprehensive training right from the first semester and well-versed in adequate technologies, our students are ready to face any and every challenge thrown at them and their performance in recruitment drives amply demonstrate that.

# ACADEMY OF TECHNOLOGY

## PLACEMENT @ 2020

AOT continues to redefine success. This year our students have already achieved 103.61% placement offer (till date) and the placement graph is expected to rise since many more companies are scheduled to visit the campus in forthcoming months.

And this is not a one-time fluke, but an achievement that occurs consistently year after year. Equipped with comprehensive training right from the first semester and well-versed in adequate technologies, our students are ready to face any and every challenge thrown at them and their performance in recruitment drives amply demonstrate that.

## ACADEMY OF TECHNOLOGY

### PLACEMENT @ 2019

AOT continues to redefine success. This year our students have already achieved 91.45% placement offer (till date) and the placement graph is expected to rise since many more companies are scheduled to visit the campus in June and forthcoming months.

And this is not a one-time fluke, but an achievement that occurs consistently year after year. Equipped with comprehensive training right from the first semester and well-versed in adequate technologies, our students are ready to face any and every challenge thrown at them and their performance in recruitment drives amply demonstrate that.
