### **Mechanisms Norms And Procedures For Democratic Good Governance**

Good governance calls for the involvement of various stakeholders in making the policy decisions as per the perception of Management and administrators.

At BPIT we are trying to involve persons from various categories for taking decisions on policy matters as well as day-to-day activities.

Starting from the top our chairman receives input from the members of the Executive committee of the trust as well as from BOG that includes persons from a wide spectrum, having trust representation, public administrator, renowned public figure, persons from industry, persons from Academia representation from alumni, principal faculty and students of the institute.

Down the line, the principle's Council comprises all directors, dean, Hods and OSD to disseminate all the decisions taken at the highest level. The council also discusses the procedures for implementation of policy decisions at the grass root level.

Further, each department has a departmental committee comprising all the faculty of the department. This committee takes up day to day issues for the proper functioning of the department in respect of various administrative and academic matters. Course committees are constituted with allied subjects teachers and students to discuss intricacies of various teaching learning activities.

Students do have a say in respect of their problems faced in the conduct of theory and Lab classes as well as the examination and evaluation of their answer books.

Apart from above there are many more committees to cover up various matters in the interest of students.

Sn overall good and transparent governance is thus achieved by the corporation and involvement of all concerns in an appropriate manner.

The Ombudsman desired that awareness about the existence of GRC be increased as much as possible. Though, website is a popular media among students for receiving such

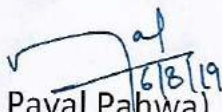

information these days, yet they may be informed about it in public functions as well.

The Ombudsman was apprised that the Institute has already created a google form for lodging the complaint. This form can be used by the students, their parent, staff members & other stakeholders for lodging their complaints. Besides, e-mail address of all the members of the GRC have been specified against their names where anyone can lodge a complaint. Anybody can file off line complaint as well. Thus, the Institute has taken every care that no grievance should go un reported and unattended.

The Ombudsman praised the administration for taking all these steps for spreading awareness about the existence of GRC in the Institute.

The meeting ended with vote of thanks to the chair.

### **Internal Continuous Evaluation System**

As an affiliated institution of GGSIPU, evaluation norms of the university are followed. The university has adopted major reform in evaluation by introducing Credit based grading system and the institute has adopted the same. The college has adopted a method of assessing the academic performance of the students on a continuous basis.

1. Each subject is of 100 marks, of which 75 marks are for end term external examination and 25 marks are for internal assessment.
2. Internal assessment is given on the basis of performance in mid term sessional exams of 15 marks and 10 marks assigned for continuous assessment of student through assignments, quizzes and performance of the student in class room attendance. Attendance of the student is also taken as a major factor for internal assessment purpose.
3. As per the GGSIPU guidelines, in each semester mid term sessional exams are conducted to measure the student's performance.
4. Special tests for slow learners.
5. More assignments are given for practice.
6. The students are informed for the mistakes committed and guided to improve their performance in next examinations.
7. Each student is encouraged to give seminars in the class.

### **Student's assessment of Faculty, System in place**

During the meeting, parents are made aware about their wards' attendance, academic performance for the semester as well as about the various learning processes conducted in the institute. Suggestions given by parents are taken into consideration for further actions. Also, this helps in identifying the parents who would help in providing support to the institute in terms of Projects, internship and placement etc.
3. Feedback about Institute is also taken from all students once in a year. This includes the feedback about the facilities and the infrastructure of the institute.
4. Various companies visit the campus of the institute for the placement of the students. Based on this feedback, Guest lectures, workshops, seminars are organized for students to help them to be ready for industry.
