Hostel Facilities

RESIDENTIAL ACCOMMODATION

“Hostel is a Home away from Home”

Federal Institute of Science and Technology (FISAT) provides affordable and quality residential accommodation to 1200 students on campus. The infrastructure is modern and provides excellent ambience for study and recreational activities. Detailed thought and consideration has gone into providing utmost comfort to the students with more personal space. The environment is serene, calm, secure and has a homely touch. There are four separate hostel blocks, two for boys and two for girls. 24x7 electricity & water, Wi-Fi, laundry facility, regular upkeep and cleaning, healthy food, ambulance and medical clinic makes FISAT hostels distinctive. Proximity to the city gives the students flexibility and freedom to access their needs with ease. We believe in the aphorism ‘Healthy minds dwell in healthy bodies’ and to that end students are encouraged to use the fitness centre and sports facilities available in the College & hostel blocks. The men's hostel can accommodate 600 inmates and the girl's hostel, 600 inmates. State-of-the-art fitness centre is available for boys and girls. The kitchens and mess halls are provided with modern facilities. Strict hygiene is followed and effective waste disposal using biogas and waste water treatment plants are part of the hostel environment. For outstanding mental health, the service of a clinical psychologist is also available on the campus. Caring wardens and good security ensures a pleasant stay, allowing students to focus on their studies.
