CMI Education Policy Statement

We, the Carmelites of Mary Immaculate, after the example of our founder Saint Kuriakose Elias Chavara, consider education as the integral formation of the human person for the fulfilment of his/her individual and social responsibilities.

Our educational endeavors aim at forming leaders who are intellectually competent, spiritually mature, morally upright, psychologically integrated, physically healthy and socially acceptable, who will champion the cause of justice, love, truth and peace, and who are ever open to further growth.

The secret of the success of our educational institutions is a community of teachers who are committed to their vocation, professionally competent, morally upright, just and humane in dealings, culturally sensitive and who grow in the true vision of education.

We aspire towards creating a just and humane society where dignity of the human person is respected, where unjust social structures are challenged, where our cultural heritage of ahimsa, religious harmony and national unity are upheld, and where the poor and the marginalized are specially taken care of.

We have to reach out to the families, primarily of the students, to assist them in their needs, to share in their joys and sorrows, and to help them experience love and freedom so that the students realize that our educational institutions are an extension of their homes.

Our institutions are open to all students irrespective of caste and creed; they are accepted and cherished as they are and are helped to grow in their cultural, social and religious traditions. As they are privileged to be in our institutions, they will also have the right to get acquainted with the person of Jesus Christ and his Gospel. Being institutions established and administered by and for a minority community based on religion, they will give preference to Christians in admissions and appointments and have a special concern for the faith formation of the Christian youth.

Our institutions are also open to the society at large by making their resources available for the ongoing education and growth.

For the realization of this CMI goal of education, we invite students, parents and teachers to share this vision and to cooperate with us wholeheartedly.

RAJAGIRI ANTHEM

Rajagiri – Oh the Hill of the King
Reign you as the caring king
Reaching out to souls come seeking
Righteous way of true living

Be you the dream of searching minds
A beacon of light, with a vision to guide
Bold in the mission to excel ever
Bright in our learning endeavour

Training to transcend the limits of time
Spreading its wings surpassing the space
Leading the way to integrity
From bondage to spirit of freedom

(Critical outlook and creative act
Reflective poise for a committed cause
Fed by the fire of conviction
Achievement of glory in service)

Chorus:

And for us, Rajagirians, Rajagiri is...
Our way of life, our task 'n tradition
A luminous star on the learning horizon
We cherish the way you nourish your own
And pledge ourselves to do you proud.

PROFILE:

Rajagiri School of Engineering & Technology (RSET), established in 2001, is a private autonomous self-financing college, affiliated to the A.P.J. Abdul Kalam Technological University, Trivandrum, Kerala. The college is approved by the All India Council for Technical Education, New Delhi. RSET offers 8 Undergraduate, 5 Post graduate and 6 PhD programmes.

Five of the eight UG programmes, i.e. B.Tech. Applied Electronics & Instrumentation, B.Tech. Computer Science & Engineering, B.Tech. Electrical & Electronics Engineering, B.Tech. Electronics & Communication Engineering, and B.Tech. Information Technology, have been granted provisional accreditation by NBA till June 30, 2021; and B.Tech in Mechanical Engineering is NBA accredited till June 30, 2022. The institution is accredited with A grade in the second cycle by NAAC.

RSET is an endeavour of the Sacred Heart Province of the Carmelites of Mary Immaculate (CMI) – the first-ever indigenous religious congregation for men in the Syrian Catholic tradition of Christianity in India. The CMI congregation, canonically established in 1855, played a major role in revolutionizing the education scene in Kerala in the late 19th century. Heirs to the profound vision of St. Kuriakose Elias Chavara, one of the founding fathers of the congregation, the CMIs' have zealously worked towards providing value-based quality education to society at large, irrespective of religious differences, down the centuries. Today, the congregation has more than 400 educational institutions, from schools to professional colleges under its umbrella.

The Rajagiri Valley campus is a perfect blend of the urban and the rural: while the verdant and serene backdrop of the self-contained campus provides the ideal atmosphere for stimulating the creativity and intellectual pursuits of the academia, the close proximity to the industrial belt of Kerala, the Infopark, and the proposed Smart City helps in providing the students with exposure to the practical aspects of their profession. This ensures a smooth transition from the institution to the industry for our graduates.

VISION:

To evolve into a premier technological and research institution, moulding eminent professionals with creative minds, innovative ideas and sound practical skill, and to shape a future where technology works for the enrichment of mankind.

MISSION:

To impart state-of-the-art knowledge to individuals in various technological disciplines and to inculcate in them a high degree of social consciousness and human values, thereby enabling them to face the challenges of life with courage and conviction.

OBJECTIVE:

The institution has the broad objective of being an active agent of change by responding to the needs and challenges of the times. This is achieved basically through the process of education, training and research.

PARENT TEACHER ASSOCIATION:

The parents are provided with the opportunity to observe the working of the institution, and to give their valuable suggestions for better quality service through the interaction with the faculty and the management. The PTA has an executive committee comprising the parents of students' branch wise and year wise and the representatives of the faculty including the Director and the Principal. The committee meets at least twice in a year to discuss all matters of interest.

STUDENTS' GRIEVANCE REDRESSAL:

The mechanism takes care of the complaints and difficulties of the student community. At the primary level, the teacher-in-charge listens to the problem in detail. If it is an academic matter, the faculty member of the concerned subject is consulted to sort out the case. If the situation demands, the teacher-in-charge will also contact the parent/guardian/hostel warden.

The teacher-in-charge refers unresolved cases to the HOD. The two members can avail the services of the Student Welfare Officer if needed. At the appellate level, the Principal will redress all the unresolved cases in consultation with the College Council and the Director.

Entrepreneurship Development Cell & Incubation Center:

(Innovation and Entrepreneurship Development Cell (IEDC))

The Entrepreneurship Development Cell has been set up with the objective of inculcating an entrepreneurial culture in the students, and to sensitize them to the real economic and industrial development scenario. The ED Cell organizes interactive sessions with successful entrepreneurs, workshops and debates, and interaction with promotional agencies.

The Rajagiri Incubation Centre (RIC) provides RSET alumni and students with facilities that will help them design and develop the working models of their innovative ideas and concepts. The center is supported by a set of committed and experienced faculty members who provide constant encouragement for new and developmental initiatives.

Coordinators: Mr Nitheesh Kurian (DEC) – Nodal Officer

Department Coordinators: Dr Rajeev Kumar P. (DCE); Ms Divya James (DIT); Dr Abraham Thomas (DEI); Ms Soniya Raju (DEE); Mr Jithin K. Francis (DME); Mr Harikrishnan M. (DCS), Ms Saritha V. (DBSH), Mr Shyam Sunder Iyer (DMA)

Industry-Institute Interaction Cell:

Industry-Institute Interaction Cell has been set up with the objective of promoting interaction between industry and institute for the betterment of engineering education offered at RSET. The cell provides opportunities to the faculty and students to get familiarized with the practices of the industry and its associated activities, thereby bridging the gap between academic learning and industry applications.

The cell organizes industrial visits, industrial training, seminars, workshops, technical talks etc. Students also get the opportunity to interact with senior executives from various industries under the programme 'Tea with a CEO'.

Tie up with different industries have been established in various aspects like sharing expertise and building supportive partnership and network; developing academic-industry interface by undertaking R&D projects, students projects, consultancy services, support for the design / development of industrial projects; and identifying talented students and nurturing their capabilities amongst others.

Coordinators: Dr Thankachan T. Pullan (DME), Mr Karunakara P. Menon (DEC), Ms Nimisha Reji (DCE), Fr Thomas P.J. (DEI), Dr Sherly K.K. (DIT), Dr Unnikrishnan P.C. (DEE), Prof. K. S. Mathew (DCS), Mr Vinay Menon (DBSH), Ms Eva Cherian (DMA)

Software Development Unit:

Rajagiri Software Development Unit has been formed to fulfill all the software needs of RSET. The group helps RSET with requirements gathering, requirements analysis, design, development, implementation, vendor validation, outsourcing, negotiations etc. The group is headed by the faculty, and has both faculty and software developers as its members. The group also employs RSET students who are capable of contributing to the appropriate activities of the group. The students thus get an opportunity to work on real projects which are later put in to use.

The RSET website and associated framework for automating the same, Rajagiri Students Management System, RSET & RSOM email servers, RSET Digital Library, RSET Payroll Management System, RSET Online Examination System, Admission automation, Exam automation, and Maintenance Management System are a few of the software that have been

developed by the unit. The unit also carries out consultancy work.

Coordinators: Mr. Biju Abraham Narayamparambil, Mr. Jobin Jose

Training & Development Cell:

Globalization and the dynamic nature of the engineering stream have created the demand for engineers who are not only technically competent but who also have a fair measure of soft skills and intercultural awareness. Organizations look for employees having this competitive edge that will enable them to excel in their chosen field. The Training and Development Cell aims at fulfilling this need and ensuring a smooth transition for the student into the world of business as a full-fledged professional.

The objectives are to help students develop their personality and equip them with the additional skills necessary to succeed in the workplace. Complementing the technical knowledge received during the four year course, will be structured and continuous inputs on personality development and soft skills that will enable students to have a holistic view of themselves, their education and career choices. The areas of focus include:

- Self and context awareness
- Decision making and action planning
- Leadership skills
- Team skills
- Values & ethics

Rajagiri Research and Consultancy Center (RRCC):

RRCC is a body that coordinates the research activities of Rajagiri School of Engineering & Technology in view of sponsored projects and industrial consultancy, operational at RSET ever since 2008. It consists of Centers of Excellences (CoEs) organized under Rajagiri Institute of Future Technologies (RIoFT) and Research Groups that nurture the creative problem solving skills of members of RSET family, guide research and development projects of undergraduate, graduate and research students of RSET and mentor the entrepreneurial skills of the students in order to establish a startup culture at RSET. Each CoE and Research Group consists of faculty members and students who research on specialized areas of engineering and technology and develop suitable solutions in an entrepreneurial spirit.

Coordinator: Prof. Dr.-Ing. Varghese Panthalookaran CMI

1. Rajagiri Institute of Future Technologies (RIoFT):

Rajagiri Institute of Future Technologies (RIoFT) is conceived as an umbrella body of different Competence Centers or Centers of Excellences, which will pursue R&D on the future technologies in collaboration with different national and international academic and industrial partners. Here, a typical Competence Center or Center of Excellence (CoE) is an interdisciplinary research group led by a Chair Professor sponsored by an industry, who will lead its R&D and entrepreneurial activities. The sponsoring industry will additionally establish a state of the art laboratory and well-equipped library within the area of excellence. In due course of time, each CoE may also establish typical Master Programs in Technology (MTech) in the focal area of the CoE. The sponsoring industry will benefit from the results of the R&D related to the far-future of the industry, carried out through the undergraduate, graduate and doctoral research projects of the students as well as from the joint R&D projects sponsored by different national and international industries or agencies. Each CoE will carry the cultural signature of the sponsoring industry, with respect to its programs and processes. Thus, participating in the activities of a CoE will help students become industry-ready, imbibing the culture of the sponsoring industry, participate in its R&D related to its future technologies and innovate along with the industry in true entrepreneurial spirit. This is expected to improve the placement of students in the core companies related to their area of interest and expertise as well as trigger a startup culture in the campus. Each CoE will also develop its own branded international events as well as publications in due course of time.

Centers of Excellence (CoEs) as well as Research Groups will help students develop research and life-long learning skills. Students or student groups will be mentored by CoEs and Research Groups in view of the undergraduate/graduate/doctoral research. A typical undergraduate research project at RSET, for example, consists of four phases. 1) “Nano-project” phase, where the first year undergraduate students are initiated into the innovative themes of the respective engineering discipline in the very first year of their BTech program, 2) “Micro-project” phase, where the undergraduate students get experiential introduction to undergraduate research, 3) “Mini-project” phase, where concrete definition is given to the undergraduate project, and 4) “Macro-project” phase, where the project is implemented and reported. A similar approach will be developed for Graduate as well as Research degree programs in due course of time. The necessary skill-set required by specific project is acquired through dedicated programs like workshops, industrial visits, conferences and lectures organized by CoEs and Research Groups.

Saint Kuriakose Elias Chavara

St. Kuriakose Elias Chavara was born on 10 February 1805 at Kainakary, Kerala. At the age of five he began his studies in a village school, called *kalari*. When he was 13, he joined the seminary at Pallipuram for his priestly training. While he was in the seminary, his parents and his eldest brother died of an epidemic. On 29 November 1829, he became a priest.

St. Chavara was instrumental in founding two Catholic Religious Congregations - one for men, Carmelites of Mary Immaculate (CMI), and the other for women, Congregation of Mother of Carmel (CMC), for the spiritual renewal and all round development of the society. Starting seven ashrams and a convent in different parts of Kerala, St. Chavara initiated a spiritual movement among the people of Kerala. He established the first Catholic Sanskrit School, a major seminary and a printing & publishing house at Mannanam. He directed that every church should start a school attached to it and encouraged children even poorer sections to attend the schools by supplying midday meal and dress for them. He founded a 'Home of Charity' to take of the destitute, the beggars, the uncared sick and the old. He also organized the first voluntary charitable association in Kerala for self-help among the needy. Even in the midst of such manifold activities, he found time to write several literary and spiritual books in prose as well as verse. Among them, '*Anastasyayude Rakthasakshyam*' is the first narrative poem and '*Nalagamangal*' the first chronicle of history in Malayalam. He knew seven languages - Malayalam, Tamil, Sanskrit, Syriac, Latin, Italian and Portuguese. Essentially, however, St. Chavara was a man of prayer and great charity. He lived for 65 years and died on 3rd January 1871. His sanctity was officially recognized by the Church, when Pope John Paul II declared him 'Blessed' on 8th February 1986. He was canonized on 23rd November 2014 by Pope Francis. St. Chavara is the heavenly patron of all CMI and CMC institutions. Let us pray to him to intercede before God for all our needs, especially for success in our studies.
