If yes, give a brief descripiton and a list of modules currently operational (maximum 500 words)	**Stella Maris College has a custom developed Education Management Information System (EMIS) which is specifically designed to monitor the academic programmes and other educational support systems in order to enhance the student experience. The EMIS stores all student data from the time of admission into a programme to graduation. It stores personal data, exam and graduation records, hostel and library details, course registration,**

certificate course registration, and attendance records. Additionally, it stores records of the daytoday progress of students. This data is used to monitor student advancement, and assist course teachers and departments to improve course syllabi and adopt appropriate teaching methodologies and assessment tools. The Examination focuses on: generation of Semester Examination timetables, examination seating arrangements, registration for Supplementary Examinations, Hall Ticket generation , mark entry, consolidation of End Semester results, Mark Sheet generation, registration for Convocation and consolidated Mark Sheet generation. module It also covers features such as category of examination (viva, practical, theoretical or combinations of both), Mark Sheet preparation, generation of Hall Ticket, GPA and CGPA reports, Mark Sheet printing, faculty grading and feedback, student evaluation and feedback. The Examination module SMS services have been integrated into the system. This allows bulk as well as selective SMS to be sent to parents and students. Bulk emails have also been enabled. The Fees Module is responsible for all fees processing information in the institution. This module enables the following processes: Generating Department Numbers and the fees challan for new students, semester fee payment, supplementary fee payment, generation of ID cards, Transfer Certificates and Course Registration. The Admissions Module enables online application for admissions, generating call letters, calling the applicant for interview, selection of applicant, sending SMS, email to selected applicants and generation of admission reports. Module is responsible for all Examination procedures in the institution. The Academic Module enables attendance posting for students, mentoring, request for student participation in extracurricular activities, and course registration.

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

Student feedback is an important mechanism and integral to institutional improvement and development. In SMC, student feedback is used to enhance the teaching-learning experience, to monitor and review quality and standards of educational endeavours, ensure the effectiveness of course design and delivery, to enable students to speak up, measure student satisfaction and to identify and encourage innovative practices. Different categories of surveys serve these purposes: Feedback is sought to assess the performance of an individual faculty member (Teacher Evaluation), a course of study (syllabus), at the end of every semester and at the point of exit for every degree programme. Types of mechanisms include the following: questionnaires, surveys, student representation on class feedback committees, reflection journals, overall institutional satisfaction at Student Council Meetings, other informal mechanisms. Analyses of feedback is taken through a centralised, online system, wherever possible. The questionnaires which use ordinal or Likert scales are summarised as frequencies and percentages and presented graphically. Some questionnaires and surveys contain open-ended questions which are systematically read by designated faculty. Common patterns and issues are identified in this manner. Open-ended questions provide an opportunity for students to make their voices heard and state their opinions without backlash. They are taken seriously, and where necessary, action is taken by the Principal. When the feedback is to improve the teaching-learning process, the analysis and representation is communicated to the faculty responsible to take action. The Principal takes up issues relating to faculty feedback every semester. The decision of the Principal on such action taken is final. Feedback from Student Council Meetings are discussed at the given forum, and responses given by the Principal. The issues are addressed directly, and recorded in the Minutes as decisions taken on a given issue which has been raised. These multiple feedback mechanisms ensures objectivity and encourages stakeholder participation in order to enhance student centered learning, continuous improvement in the teaching-learning process, innovative assessment practices and student support services.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Student mentoring is an integral part of the teaching-learning process in the institution Every faculty member is given a group of students to mentor for academic assistance and personal support. Care is taken to see that the

mentor has taught, or has taught the students for some course, and the students are, therefore, not strangers to her. Among duties of the Mentor is to ensure that all details about the student are entered (the system is computerised), and the results of tests and examinations filled in within a stipulated time after the results have been declared. Comments and advice are also documented in the individual file of the student. Mentors and Mentees meet at least twice a semester, and whenever requested by Mentor/Mentee. Where needed, the Head of Department may be consulted. In cases where the issue requires the intervention of parents, a one-on-one meeting between Mentor, Mentee, and parent is held to resolve the issue. Mentoring is an important intervention for young people at-risk, particularly first-generation learners, students from disadvantaged and economically challenged sections of society, who find it difficult to transition to a higher educational system that is very different from their schools. The Mentor also takes on the role of guide who helps a young person in her personal growth. She provides support to vulnerable young women and establishes this service as a critical part of the Mentee's college experience. She also provides counselling services when needed, or directs her Mentee to a professional counsellor is the issue is serious and warrants professional intervention. Mentoring is thus a key to the development of academic and social skills for every student.

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website)

Maintenance and upkeep of the various facilities and infrastructure is overseen by the Campus Manager. The line of control flows from the Campus Manager to the Supervisor, down to the support staff. The Campus Manager allocates support staff for cleaning of classrooms and of the campus in general. The maintenance of laboratory equipment is overseen by the respective departments. Utilisation of the facilities is dependent on a system of planning the event/activity at the end of every academic year, and booking the facility manually through a register. The procedure will become online, shortly. Maintenance and updating of computers (hardware and software) is the job of the IT Department. Purchases are overseen by the internal auditor. All other purchases are overseen by the Supervisor. Science laboratories are maintained by the respective science departments. Stock taking of all the laboratories is conducted annually. The stock register is checked and signed by the Head of Department. A requisition letter requesting replacement/procuring of chemicals etc. is made to the Principal by the Head of Department and forwarded to the Bursar for release of funds. Bills in the original are first scrutinised by the internal auditor and then submitted to the Bursar. Departments keep a register of all procurements and replacements. An annual audit of the laboratories is undertaken by the state government agency. Procurement of equipment is done through a system of obtaining quotes from at least three vendors. The final decision is taken by

the internal auditor after scrutiny of the various provisions of the quotation, focusing on quality and cost. Departments also maintain an Issue Register, Accessory Register (separately for chemicals and apparatus) and a Condemned Register. Annual maintenance of all campus infrastructure and facilities is undertaken by the Campus Manager and assisted by the Supervisor. The Department of Physical Education has oversight and organisational control over games and sports activities in the institution. All logistics are determined by the Physical Directress, who also takes feedback from athletes and other team players and individual sports persons about the arrangements for travel, hospitality and arrangements at the location of various competitions. The Sports and Games Budget is decided by the Bursar, and the logistical and expenses are planned by the Physical Directress, in keeping with available funds. Strict criteria is adhered to when coaches for sports and games are recruited. Applications are scrutinised at the primary level by the Directress, and approved by the Principal

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The Student Council (The Stella Maris College Students' Union) of the College plays a supportive and participative role in the activities of the institution, and is a "cooperative forum" which ensures a highly democratic and participatory role in furthering the goals, objectives and mission and vision of the institution. The Union is responsible for the conduct of various student-centered extra-curricular activities on campus such as inter-year, inter-collegiate cultural competitions, Club Day performances, and other cultural programmes in consultation with the Deans of Student Affairs. The Union Office Bearers comprise six members: The President, the Vice-President, Treasurer, General Secretary and two Cultural Secretaries from the two shifts. Their roles and functions are contained the Stella Maris College Students' Constitution. They are elected through self-nomination for any one post. The nominations are scrutinised by the Election Commission comprising the Principal, Vice-Principals and the Deans of Student Affairs. In true democratic style, they are permitted to campaign for a fixed number of days, followed by the e-polling process, the dates for which are drawn up by the Deans. The key members of the Students' Union are involved in the activities of the IQAC. They support the IQAC in the student feedback process, provide it with data pertaining to quality improvement initiatives in the functioning of the Union activities, as well as the actions and policy decisions adopted by the institution and various departments for improving the quality of education. There are Students' Union representatives in the IQAC, as well as student representatives from every department of the College. They undergo training and receive input on their role and functions, and are active participants in the functioning of the IQAC. Student representatives are part of the Boards of Studies of every department. They play a significant role in decision making by providing references and feedback on curriculum, teaching and assessment. Student Class Committees provide direct feedback to the Deans of Academic affairs on quality, relevance and suitability of syllabi for careers, outcomes of co-curricular and extra-curricular activities and suggestions for improvement. They meet with the Deans mid-way through every semester, so that effective remedial action may be taken wherever required. Student Council Meetings held at the end of every semester comprises members of the Students' Union and Class Representatives of every class in the College. These meetings are a forum for major feedback sessions on the infrastructure, facilities and other aspects of the College's functioning. The meetings are held in the presence of the Principal, Vice-Principals, Deans and faculty members of the College. Wherever possible, the Council Members are encouraged to initiate improvements in the functioning and services of various units of the College such as the Bank operations on campus, the canteen, and the bus services through the proper channel, before the meeting and present the responses and results. The feedback from the student body on the Students' Union activities is also presented at these meetings, and suggestions for improvement decided upon.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

 Yes

 The Alumnae Association augmented their activities in 1995 through the efforts of Dr. (Sr.) Flavia fmm and her dedicated team, under the guidance of the then Principal Dr. Sr. Annama Philip. Today the Alumnae Association is vibrant and active and includes a Kerala Chapter, a Bangalore Chapter and is envisaging a new Madurai Chapter. Alumnae ensure continued contact with the College and facilitate creative involvement in the progress and activities of the College. This leads to reviving contacts so as to enable our dream of building new chapters within India and abroad. The members meet regularly during the academic year and celebrate important festivals. They look forward to participating in the Christmas programme at the end of each year, enthusiastically join in the Carol singing and enjoy the fun of the Christmas get-together. Apart from this we focus on sharing Christmas joy with the less fortunate, children and the aged. 'Kalanjiyam', a forum for discussion and interaction on areas of interest has also been formed and serves as a platform for speakers from a wide range of fields. More often than not, experts include well known public figures from among our alumnae members. The Career Guidance Cell of the College is administered by Alumnae members on a voluntary basis. It is dedicated to providing quality training and career development programmes for the students of the College. The campus recruitment process in the College is handled by Alumnae members.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

 The institution has put in place management strategies where faculty members holding administrative positions, key administrative officers and other faculty members are actively involved in decision-making processes, thereby utilising the full potential of the intellectual and emotional human capital available in the College. 1. The Staff Council is the highest decision-making body in the institution. It comprises the Principal as the Chairperson , the Secretary, the Vice-President of the FMM, the Vice-Principals, the Deans, Directors, Heads of Departments, the IQAC Coordinator, the Controller of Examinations, Associate Controller of Examinations, the Librarian, the Physical Directress, the NSS Coordinator, NCC Officer, the Office Superintendent, Bursar, and the Campus Maintenance Manager. Major decisions pertaining to student affairs, academics, examinations, planning and implementation are brought to the Staff Council, which debates on the issue at hand, and by voice vote, takes a decision on the matter. In case of lack of consensus, the Principal has the final say. The decisions are incorporated into the minutes of the meeting, which are signed by

the Principal and Vice-Principals. The finalised minutes, containing the decisions taken are kept in the Office of the Vice-Principals to be read by the general faculty body. Decisions involving changes in policy/regulations are incorporated into the academic handbook for the new academic year. 2.The Departmental Quality Assurance Cell (DQAC) is an offshoot of the Internal Quality Assurance Cell (IQAC) of the College. As a facilitative and participative organ of the institution, the DQAC is the driving force for ushering in quality at the department level by working out intervention strategies to "remove deficiencies and enhance quality." Structure: The HoD of the Department heads the Cell. The other members hold the post for a period of three years, on rotation. Composition: The DQAC comprises the HoD and one senior faculty member of the department (if it is not the HoD) in an undergraduate-only department, and the HoD, and two/three senior members of a department offering both undergraduate and postgraduate programmes. An external expert on quality management is also be a part of the DQAC. Functions: • Development and application of quality benchmarks/parameters for the various academic and administrative activities of the Department. • Facilitating the creation of a learner-centric environment conducive for quality education • Arrangement for feedback responses from students, parents and other stakeholders • Organisation of departmental workshops, seminars on quality related themes and promotion of quality circles amongst faculty and students of the department • Documentation of the various programmes/activities of the Department, leading to quality improvement • Development and maintenance of Departmental database for the purpose of maintaining / enhancing departmental quality • Interaction with IQAC in the pre and post accreditation quality assessment, sustenance and enhancement endeavours The DQAC takes decisions on the following: • Finalisation of question papers for respective departmental courses, both continuous assessment and Semester Examinations • Assisting in fixing the schedule for make-up classes of faculty members who have taken leave • Planning events and activities of their respective departments • Student issues

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	The quality improvement strategies in the area of Curriculum Development are predicated on a philosophical framework for whole person education in the design of the curriculum, in keeping with the mission and vision of the institution. Key strategies involve the following: ? Convening a Curriculum Development/Revision Committee headed by the Deans of Academic Affairs ? Identifying areas for improvement through feedback from students ? Reviewing guidelines for curriculum by government agencies ? Assessing contemporary/relevant needs and issues ? Developing course and programme objectives ? Implementing improved curriculum ? Conducting academic quality audit ? Reviewing

		impact/success of curriculum
Teaching and Learning		Quality improvement strategies in the area of teaching and learning are consequent to the periodic review of existing pedagogies, taking into account performance indicators, results, programme objectives and outcomes. A variety of strategies are deployed, prioritising teacher quality and learning outcomes. They include training programmes and workshops based on needs of different faculty groups, analysing student feedback on course delivery and teacher evaluation, and taking corrective action, promoting content-specific faculty development programmes. Innovative classroom methods, use of interactive computer technology, encouraging independent learning and e-learning, computer-based instruction to enable self-paced learning, using problem-solving teaching methods, peer learning and teaching, development of critical thinking abilities in students, encouraging research, are key strategies employed by faculty for quality improvement in learning.
Examination and Evaluation		In keeping with the increased use of technology in all aspects of institutional functioning, all examination and assessment logistical procedures have been computerised and automated. Students can improve their continuous assessment scores by taking course-wise Continuous Assessment Improvement tests conducted after the first test. Quality improvement strategies in this area therefore involved investing significantly in ICT infrastructure. The computerisation of examination processes has made the system more efficient, and quicker, reducing errors in computing marks and grades. The gap between examination and declaration of results has also reduced.
Research and Development		The institution has identified the following components for quality improvement in research and development. In research the following actions were deemed necessary: • Research skills and capacity building workshops and training sessions for both faculty and undergraduate students. • UG Students who complete dissertations and research projects

	receive extra credits • Input sessions on research methods and methodology part of the professional training activities for faculty Members, Research Scholars and PG students • Institution of the Office of the Dean of Research for coordination of all research related activities. • Efforts to tie up with institutions of eminence to support research in the institution. • Upgrade technology for faster and more efficient research services • Use research based innovative approaches to enhance teaching and learning • Awards for Research Achievements • MoUs in this regard signed with national level and international institutions. • MoUs to be kept active, with joint/collaborative provisions adhered to.
Library, ICT and Physical Infrastructure / Instrumentation	In the pursuit of excellence in every sphere of education, it has become imperative to upgrade library facilities with the latest technology. Latest Radio Frequency Identification (RFID) technology is used in libraries for theft detection. The technology eases the circulation process and inventory control, and uses wireless radio communication to uniquely identify objects. Significant features of the upgrade include the following: • A self-service "check-in" and "checkout" by use of the Self-Kiosk • A Drop-box for ease of return • RFID enabled Identity cards have been issued to the entire college community for which e-card readers have been procured
Human Resource Management	The institution views the management of human resources as a pivotal factor in quality improvement, particularly in the context of a fast-paced global environment. Strategies include: • Aligning all processes, objectives of the institution with its mission, vision, values, and goals of the institution • Hiring and recruiting the best faculty and staff • Ensuring collaboration and collegiality between and among departments • Fostering talent and offering opportunities for professional growth • Encouraging teamwork • Periodic upgrading of skills of faculty and staff through training workshops • Training and Development in "methodological competence," (teaching, administration, technological skills)

	self-confidence and communication skills, management competence (leadership development, project management)
Industry Interaction / Collaboration	The institution has greatly increased its collaborative initiatives with industry in order to enhance the employability potential of its graduates, and motivate and skill them for entrepreneurship. With this in mind, strategic action in the following areas are encouraged: • Conferences/seminars and workshops in collaboration with industry • Guest lectures on subject-specific areas from industry experts • Involvement of industry-experts in curriculum design • MoUs with leading industries for collaborative project execution • Student internships with industry partners for hands-on learning • Industry-institution collaboration for environment-friendly initiatives for alternative energy sourcing
Admission of Students	A major thrust of the institution's vision is to respond to the educational needs of women in socially and economically challenged sections of society, and offer them quality education so that they would be empowered to face the challenges of life. The admission process was further streamlined so that deserving sections would receive the benefit of affirmative action. As student strength was bound to grow, the process was documented and a handbook now details procedures and processes of admissions. Another improvement strategy in this area was to commit the entire process to a technology enabled system whereby time, paper and costs could be lowered and efficiency optimised.

6.2.2 – Implementation of e-governance in areas of operations:

E-governace area	Details
Examination	The college has a separate Examination office which is fully equipped and ICT enabled. Registration for examination, generation of Hall tickets, bar coding of answer scripts and mark entry, declaration and publishing of examination results have all been computerized. Issue of marksheets with security features like hologram and photograph of the candidate.

Planning and Development	In order to promote e-Governance in the area of Planning and Development, various initiatives have been undertaken to develop core infrastructure. The major core infrastructure components are data capture templates by the IQAC, upgrading ICT and promoting its use in teaching-learning processes, use of select social media for greater efficiency and connectedness, (blogs, WhatsApp, video sharing links) leading to enhanced outreach and "real-time engagement." SMART Classrooms have been set up with interactive software. Fully automated library with e-resources, virtual classrooms, labs equipped with relevant software, alumni association, fee payments, etc are ICT enabled. Enrolment of students for various courses, viewing of examination results are all computerized. E-learning facilities make the learning process more flexible and student oriented. This improves the teaching and learning quality thus making the students more receptive to the learning process.
Administration	E-governance in administration takes place in the following areas: • With the UGC for the National Skill Qualification Framework, scholarships for students • NAAC: AQAR, IIQA, SSR • Public Finance Management System (PFMS) to update details on expenditure, advance and transfer when funds are received from the Central Government • University of Madras: Annual Staff Return, Online Qualification Approval for Faculty, Permanent Pass register (PPR) • Foreigner Regional Registration Office (FRRO) to register details of foreign students • NIRF • AISHE: Online survey, updating details of students, faculty members and minority details • Salary (Pay) Bill: PF, CPS, SPF, TPF • Service Register: IFHRMS • Student Scholarships • Fees • Examination process • Admission Process
Finance and Accounts	All finance and accounts have been computerised: Tally, ERP 9, MS Office, Excel are used. • Online payments to government agencies have been enabled: TNEB, BSNL, TDS (IT)
Student Admission and Support	E-governance is utilized in the admission process by setting up of exclusive and individual email addresses for the prospective students.

Correspondence is fully online throughout the admission process. The attendance system is also computerized and the students can view their attendance percentage online through the student login portal. The mentoring system is also computerized with the details of the mentees being maintained by the staff mentors. A new Electronic Transcript delivery service for students has been recently launched and can be used to obtain transcripts for higher education in foreign universities. By this systems, students can request for transcripts through a secure online portal that is open 24/7. Student nomination and election, scholarships, feedback.

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

1. Bio-Gas plant 2. Reverse Osmosis plant 3. Grey water recycling 4. Rain water harvesting 5. Herbal garden 6. Solar Power Generation 7. Safe disposal of laboratory wastes 8. Green Hut 9. Thematic Garden

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1. Gender Awareness and Empowerment of Women: Stella Maris College caters to young women and provides them with an atmosphere which is both empowering and inclusive. Encouraging students from varied backgrounds and reaching out to them has been the purpose and mission on which the institution was founded. Towards achieving this goal several initiatives have been taken up to ensure preparedness of the young women not only for gender equality but also gender equity. Regular events, programmes, conferences and seminars are conducted on campus every year for all students in order to focus attention on the benefits of a gender-equal society. There is also a seamless integration of Gender Awareness into every level across disciplines through curriculum introduction, development and use of innovative teaching-learning methods and research practices. 2. Entrepreneurship: In tune with the mission of the College to empower young women to be self-reliant and financially independent, the Entrepreneurial Development Cell was set up in 2017-18 and registered with the Centre for Entrepreneurship Development (CED), Anna University, as a Spoke Institution. The Entrepreneurial Development Cell (EDC) is a growth driven cell with students aspiring to become entrepreneurs. The cell aims at ideating-bringing out new ideas, innovating and collaborating- bringing together corporates, faculty and students. The Cell serves as a catalyst of the entrepreneurship ecosystem in the Institution through its various interventions and initiatives. It provides a platform to budding entrepreneurs with mentorship by successful entrepreneurs, enhances capacity building through interaction thus enabling them to groom their entrepreneurship skills. To provide hands on experience workshops form an integral part of EDC programme. EDC's approach to entrepreneurship is highly integrative, attempting to create a close connection between the theory and practice of entrepreneurship. As a

prelude a course on entrepreneurship is offered as part of curriculum across various disciplines. To foster the entrepreneurship spirit among students inspiring motivational talks by successful entrepreneurs, Training through Workshops, Exhibition and sale of products created by the students is an annual feature in the Institution.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The institution strives to encourage growth into mature and responsible women, ready to face the challenges of life at home and in society. The ceaseless quest for truth and the untiring spirit of selfless service is the hallmark of a true Stella Marian. The following Key Performance Indicators may be used to measure the performance of the institution in the thrust area of its Vision: 1. Courses Oriented towards Social Commitment and Self Development: Value Education Courses and Social Awareness/Service Learning train students to be sensitive to the "other." Service Learning (SL), a course-based experiential learning engages students in service to the community as an integrated aspect of a course. Students participate in an organised service activity and reflect to gain further understanding of course content and an enhanced sense of personal values and civic responsibility. This method is seen as an effective way to enable students to achieve required learning outcomes through service to the community. Service Learning seeks to advance the goals of the institution in terms of social commitment. At the end of the course, students will • Make strong connections between curricular and experiential learning • Reflect on how thoughts and actions impact the development of supportive, inclusive communities • Reflect and document connections between knowledge and skills and resulting from classroom learning and service-learning experiences • Understand the role of society and society issues in shaping values • Demonstrate leadership skills and social skills • Demonstrate increased skills in developing, and/or sustaining a positive change in self, campus, local, national and/or global communities • Demonstrate the ability to analyse social justice issues and the potential influence and impact they have through their service The Social Awareness Programme enables students to understand and react appropriately to both the problems and needs of society and the interpersonal struggles of the members of the communities around them. It trains and sensitises them to become aware of their environment as well as interpret the emotions of people with whom they interact. Students improve their skills in connecting with others verbally and non-verbally, acquire higher levels of emotional intelligence, the ability to empathise with others and understand the roles they play in society. At the end of the programme, the student will • Understand how to accept diverse cultural norms and social mores • React in appropriate ways to the problems and interpersonal struggles of members of different communities • Empathise with issues and problems faced by people and groups from diverse backgrounds • Demonstrate increased understanding of social justice issues • Demonstrate the ability to influence and positively impact communities through their service 2. Intake of students from marginalised sections: The institution prioritises enrolment of deserving students from marginalised communities. 3. Student support services that contribute to excellence and citizenship: • Life Skills programmes and Soft Skills Courses • Mentoring • Remedial coaching

MINUTES OF THE INTERNAL ACADEMIC AUDIT CORE COMMITTEE MEETING ON PROCEDURE FOR THE CONDUCT OF THE INTERNAL ACADEMIC AUDIT

Date   : 12 July, 2018

Time   : 1.30 pm

Venue   : Small Conference Room, CC Block.

Dr. Shiny John Vairamon, IQAC Coordinator welcomed the members and the meeting was initiated by Sr. Nirmala invoking the blessings of the Almighty.

The primary objective of the meeting was to finalise the audit process and schedule. The members deliberated on several issues and the following are the main points of discussion.

Dr. Bernadine Joseph clarified that identifying gaps in the process was the main focus of this audit .

The members were divided into 6 teams of two members each and each team was allotted three to four departments for the academic audit site visit.

The need for having an external auditor was debated and it was finally agreed that there will be an external member in each audit team. The following names were suggested:

1.   Mr. Deepak Swaminathan

2.   Mr. Satish

3.   Mr. Prabhakar

4.   Dr. Uma Maheshwari

5.   Dr. Fatima Vasanth

6.   Dr. Nithila Spurgen

7.   Ms. Latha Suresh

8.   Ms. Marie

9.   Mr. L. S. Ganesh

10.   Dr. Anthuvan

It was decided to have a pre audit orientation session with the Heads of Departments.

Dr. Felbin suggested the inclusion of IQAC departmental representatives in the audit team. In case the departmental representative was a junior faculty member, she was to be replaced with a suitable DQAC member with sufficient years of experience. This was agreed upon by the committee members.

It was agreed that the format for the audit report would be re –drafted. Dr. Bernadine consented to do the same. Ms. Shilaja of the English department will assist Dr. Bernadine.

The audit schedule with the revised dates was prepared.

Schedule for Academic Audit 2018

July 19, 2018	Feedback to Departments which have not complied with SSR format
July 19 & 20, 2018	Formulating and finalising questions by auditor teams to be asked during site visit
July 25, 2018	Resubmission
July 25, 2018	Nomination of external auditors by the departments
July 31, 2018	Feedback on completed SSR
August 7, 2018	Meeting with Heads of Department
August 10, 2018	Informing external auditors about procedure and conduct, sending SSR (soft copy) and finalised questions
August 17 -25, 2018	Site Visits to be completed
August 31, 2018	Audit Reports sent to Principal for approval and forwarded to departments

The members agreed to meet on 19th and 20th of July to finalise the common questions that need to be raised during the audit.

MINUTES OF THE INTERNAL ACADEMIC AUDIT CORE COMMITTEE MEETING ON PROCEDURE FOR THE CONDUCT OF THE INTERNAL ACADEMIC AUDIT

Date   : 20 July, 2018

Time   : 2.00 pm

Venue   : Chemistry Instrumentation Room, H-Block

Members Present: Dr. Bernadine Joseph, Dr. K.H Rajini, Dr. Agnes Rozario, Dr. Francisco Nirmala, Dr. Sandra Joseph, Dr. Shiny John Vairamon, Dr. Juliana Joe, Dr. Leema Francis, Dr. Vidya Srinivasan, Dr. Birunda, Ms. Shanta Joseph and Dr. Dolly Thomas.

- The meeting began at 2:00 p.m. with a prayer by Dr. Dolly Thomas. The minutes of the previous meeting was signed after which Dr. Bernadine Joseph projected the questions that could be asked to the students and initiated discussions on whether it could be given as a questionnaire or asked during the site visit. The committee decided on asking questions to the students during the site visit.

- It was agreed that before a questionnaire was administered, students would be briefed by the Head of the Department on the process of Academic Audit that the College has undertaken .

- Dr. Sandra Joseph and Dr. Leema Francis felt that several courses may not lend themselves to a higher order learning, so some of the questions included in the questionnaire may not be applicable.

- One of the Academic Auditors will facilitate and help students to understand the questionnaire.

- Dr. Bernadine Joseph suggested that the Department of Commerce prepare a separate set of questions. The group suggested that all departments follow the same pattern.

- It was decided that inclusive teaching methods be integrated in course work. Dr. Leema Francis and Dr. Vidya Srinivasan pointed out that all faculty members may not be able to integrate such methodologies.

- The external will be the lead team member. Members suggested having two to three questions under each category for the student questionnaire. Dr. Rajini suggested reordering of the questionnaire with reference to quantitative learning and the questionnaire was reordered.

- Faculty members agreed to all points under the other thematic areas and finalised the student's questionnaire with a few more inclusions.

- The schedule for the site visit of the academic audit was finalised to be held from 16 to 21 August, 2018.

- Dr. Bernadine Joseph suggested that the guidelines for Academic Audit of our College be formatted in the pdf form and then circulated to the external members.

- The committee agreed upon the criteria for the external Audit member that they must be academicians with more than fifteen years of teaching experience with Ph. D degree, not a member of board of studies and should be affiliated to higher educational institution.

- The faculty agreed that the corrected SSR draft should be sent to the respective departments by Wednesday, July 25, 2018.

- The committee agreed to the next meeting would be held on July 30, 2018 at 11 a.m.

MINUTES OF THE INTERNAL ACADEMIC AUDIT CORE COMMITTEE MEETING ON PROCEDURE FOR THE CONDUCT OF THE INTERNAL ACADEMIC AUDIT

Date   : 30 July, 2018

Time   : 11.00 am

Venue   : Conference Room, CC Block.

Members Present: Dr. Bernadine Joseph, Dr. K.H Rajini, Dr. Agnes Rozario, Dr. Francisco

Nirmala, Dr. Felbin C Kennedy, Dr. Shiny John Vairamon, Dr. Juliana Joe, Dr. Leema Francis, Dr. Vidya Srinivasan, Dr. Birunda and Dr. Dolly Thomas

During the meeting the list of sources of evidence by focal area was projected and discussed. All the questions for which the Departments are unlikely to have supporting evidence were highlighted and some were deleted. A meeting has been scheduled with the Heads of Department and DQAC/IQAC representatives on 8 August 2018.

Since the Departments have not had sufficient time to prepare for the site visit, it was decided that the visit would be postponed to the first week of September to enable further discussion and planning during the CA week. The proposed dates are 3rd, 4th, 6th, 7th and 10th of September. During the last week of August leading up to the site visits the respective team members will meet the third year students and II PG of each department and brief them about the academic audit process.

The persons selected as the external members for the visits will be given copies of the following documents- The SSR, Appendices, Report Guidelines and preparation for site visit.

The Committee was in an agreement that the academic audit team should spend some time to deliberate on the possible outcomes of the academic audit process.

It was decided that the Academic Audit Committee will meet on August 6, 2018 to decide on the questions to be asked during the visit.

Dr. Shiny John Vairamon welcomed the gathering and shared with the faculty members the 'Quality Mandate' send by the UGC for Higher Educational Institutions

Dr. Bernadine Joseph briefed the members on the purpose of conducting the academic audit and the expected outcome of academic audit. The following are the points shared by her.

- The objective of academic audit is to evaluate the process rather than the product. Academic Audit is not for any accreditation or grading, but to improve the quality processes so that we can effectively work towards quality education.
- There are different mandates to be followed to run an institution. She also shared a newspaper clipping published on July 30, 2018 which appreciates the outcome based education.

She also briefed the members on the need of Academic Audit? and pointed out the following as the main reasons for conducting such an audit:

- To review and evaluate the courses and programmes to ascertain quality processes and procedures
- To develop action plans that ensure enhancement
- To ensure excellence in quality of education
- To identify and share good practices involving social commitment, holistic education, inclusiveness, good classroom activities and she emphasised on the need of collaborative work

- Coordinator of B.Voc. requested a clarification on how to assess the learning outcome for the B.Voc. Programme as the first batch is doing their final year. Dr. Bernadine added that more emphasis on structured and recorded/ documented feedback from all the stakeholders should be given. All feedback should be measurable. Anything by word of mouth will not be valid until it is documented.
- It was repeatedly emphasised in the meeting that Academic Audit is more on self-reflection and self -improvement.
- Dr. Bernadine also spoke on the AA process which includes peer review and is faculty driven and aims towards students' success.
- AAA can be done externally / internally. Syllabus revision should be done after getting the feedback from all stakeholders, structured conversations and evaluations.
- AA will include Self Study, SSR, Auditor site visit followed by ongoing improvement initiatives.
- The quality of AA can be maintained only if all stakeholders are involved and outcome based assessment is followed. A proper method /structure to be followed and conversations to be organised by focal area.
- Terminologies such as outcome, objective were discussed. The outcome should be based on the level of the course (introductory/advanced)
- Details on what all NAAC expects to upload in the website were explained. Dr. Bernadine also added that papers published in scopus indexed or WoS only will be considered by NAAC.
- Curricula should be revised based on the feedback, relevance to society, environment, etc.
- The format followed for academic audit in the institution is TRB 16-17 which is being followed by many universities in US, Africa and few Indian Institutions. Audit team will meet the faculty and students separately. Once the audit team submits the report, it will be sent to the departments and the departments have full right to respond or comment on the report.

Academic Audit Team

- A faculty team of 20 members underwent training on the basics of audit principles and those members will visit the departments in teams along with external member. The Audit team will look into how the SSR and the evidence matches, the improvements and performance and report on the improvements required. The auditor team will give commendations, affirmations and recommendations at their exit meet. The Departments are allotted dates for the audit team to visit and the team will visit the faculty in Shift I Department from 2- 4 pm and shift II from 9.30- 11.30 am during the allotted dates. They will visit the students of shift I from 12-1 and Shift II from 1-2 pm.

Deadlines

- Submission of revised SSR and appendix by Aug 13, 2018
- Email 2nd external auditor name by 11/8/2018
- Dr. Shiny John Vairamon also informed the faculty that during CA tests days, the faculty members are requested to read the Department SSR, review it and to cross check evidence with SSR. Evidence collected from the past three years will be ideal.

- **Questions analyzed by the Students Union 18-19**

1. How can students play an important role is enhancing the quality of education?

2. What are the various initiatives that can be taken by the students for a clean environment?

   3. How to bring inclusiveness among students for creating a clean environment and ways to improve quality education?

- **Answers discussed**:

1. **Clean Environment**:
- Long term and short term segregation of waste

Ex: * banning plastics.

* bringing own cutlery.

* separate bins for bio-degradable and non-bio degradable waste.

* spread awareness through posters.

* segregation of plastic waste and recycling it.

2. **Include Enviro Club:**

- Committees to ensure clean classrooms and campus.

- Planting of saplings such as Palmyra Tree.

- Saving forms of energy.

- Less use of papers and recycling the used or waste papers.

- Conduct workshops.

3. **Idea proposed by the students of sociology**:

- 12 students (2nd and 3rd years).

- Meeting to be held for further ideas on garbage disposal during events.

4. **Quality Education**:

•   An intercollegiate panel discussion could be conducted(Inter-collegiate).

•   New learning techniques can be discussed

Questions analyzed by the Students Union 18-19

1. How can students play an important role is enhancing the quality of education?

2. What are the various initiatives that can be taken by the students for a clean environment?

3. How to bring inclusiveness among students for creating a clean environment and ways to improve quality education?

Answers discussed:

 Quality of Education:

1. To encourage student research in the form of seminars, research papers, written assignments and training in extensive reading skills.

2. Use and presentation on interactive PPTs, videos, documentaries.

3. Lecture concepts to be broken down to simple ideas with relatable examples.

4. To encourage discussions and debates in order to instill in them critical thinking skills; also to encourage paper presentations by students.

5. Introduce and administer concept-orientated exercises that will encourage practical application of the concepts.

6. Strict measures to be taken on students who practice plagiarism.

7. The assessments can be framed to check for application of concepts as opposed to the currently set questions which focus only the learning understood from notes.

 Feedback on the answers discussed:

a. Panel Discussion :
   ➢ Students across colleges in Chennai will be encouraged to send presentations on the role of students in enhancing the quality of higher education.
   ➢ 10 students will be shortlisted from the presentations received and invited to attend the panel discussion on the same.

- ➢ A speaker will be identified to address the gathering on quality of education.
- ➢ A moderator will also be identified who will lead constructive discussions.
   - ☐ Time limit of 15 minutes given per person.
  - b. New seminars for encouraging extensive reading to be introduced.
  - c. To encourage critical thinking –case studies and exercises on similar topics could be given.
  - d. Software for detecting plagiarism on assignments and projects will be enforced.

☐ **Clean Environment :**

1. Discussion with the students who attended the Trinity University Conference from the department of Sociology.
   - ➢ Stands with colored bins to be implemented.
   - ➢ Budget: If Rs.20 is collected from each student, 40 dustbins of Rs.3000 each could be placed on campus.
   - ➢ Paper shredding machines could be placed on the campus.
   - ➢ Plastic recycling area is suggested.
   - ➢ Bio-degradable and non-biodegradable waste to be segregated.
   - ➢ Spreading awareness by presenting videos and posters on clean environment and garbage disposal through LED during the events.
   - ➢ Own cutleries to be brought by the student community thereby helping to reduce plastic on campus.
2. Enviro Club :
   - ➢ To ollaborate with the Kabadiwala, Non–Governmental Organisation.

3. Institutional Swach Bharat :
   - ➢ Toilet cleanliness.
   - ➢ Checking water wastage in washrooms and drinking water facilities.
   - ➢ To involve students in maintenance of thematic herbal gardens.

MEETING TO DISCUSS NEW IQAC TEMPLATE AND ISSUES IN COLLATING DATA FROM VARIOUS SOURCES

Venue: IQAC Office

Date: 20 July 2018

Time: 12- 1 pm

 Members present:

Dr. K. H. Rajini

Dr. Agnes Rozario

Dr. Sr. Francisco Nirmala

Dr. Shiny John Vairamon

Ms. Priya Suresh

Ms. U. Jeyapriya

Ms. J Birunda Antoinette Mary

Ms. Arwa Feroz

Ms. Suganya

Ms. Chanchu Nair

- The purpose of the meeting was to discuss the technical difficulties that exist in the existing IQAC template software. The existing system is not user friendly and requires too much effort to acquire and retrieve data.

- Dr. Shiny proposed that a new Common Framework can be designed to cater to the needs of different reports required for AQAR, AAPR, NIRF, NAAC, etc.

- She also pointed out that as a first step we have to begin identifying the requirements of how to store data, so that collating it for various purposes must be simplified, thereby requiring less effort.

- Ms. Priya discussed deriving/ extracting data from existing sources. Dr. Shiny also said that data from different sources were not tallying (for example, data from the administrative office data and IT Department were not tallying). Therefore data needs to be maintained on periodical basis.

- Dr. Shiny discussed the possibility of calling on the Departments to collect students' data. But Ms. Jeyapriya suggested that student data must collected during application form entry for admission procedure. This would help us collect data at one point and it would be valid.

- Ms. Chanchu said that she had faced problems whenever a sum to total data was needed since the data did not tallying. For instance, when faculty retired or left, details were not accurately available.

- Various committees decide on how data must be derived and analysed. They require data of different base periods. Also classification of data (special categories, community wise, religion wise, minority data) is a problem.

- The team decided to first study what data is required about students and acquire it during application entry for admission to various programmes of study.

- It was decided to understand the 7 parameters that NAAC requires.

So the team decided to read this. It was divided among the members as follows:

1. Ms. Jeyapriya – Curriculum aspects, Infrastructure learning resources.

2. Dr. Shiny, Ms. Suganya, Ms. Arwa – Teaching learning and Evaluation, Student   support

   and progress

3. Ms. Priya – Research Innovation and extension, Institutional values and best practices

4. Ms. Birunda – Governance leadership and management

- Further it was decided to look out for the data requirements of – AAPR, NIRF, NAAC, AQAR.
- It was decided that the team will meet next on 31st July 2018.

MINUTES OF THE CURRICULUM RESTRUCTURE COMMITTEE MEETING

Date: 23.07.2018
Time: 1.30 pm

Members present: Dr. Sr. Lourthu Mary, Dr. Juliana Joe, Dr. Agnes Rozario, Dr. Shiny John

Vairamon, Dr. Leema Francis, Dr. Felbin C Kennedy, Dr. Sumithra Dawson, Ms. K. Latha

The Deans of Academic Affairs presented the consolidated feedback received from Departments on Curriculum restructure 2015. The following points were discussed.

- **Part III**:
  1. It is feasible for Departments to have autonomy in credit distribution for major courses
  2. Interdisciplinary Major Electives may be offered in place of Allied Electives. Each Interdisciplinary course should be framed and taught by two departments, with equal weightage given to content and credits for both disciplines. To consider o Pairing of departments

- o The course will be offered to students from the paired departments or across the college
- o Being under Part III, this should be subject to University norms

□ **Part IV:**
1. Considering the University mandate of 12 credits for Soft Skills:
   - o To rethink the Soft Skills component o Look at models followed by other Colleges
   - o Deans of Academic Affairs to get Soft Skills syllabus of the University of Madras o Consider releasing credits from VE/CD for Soft Skills: 1 credit for VE/CD per year for the first two years of UG programmes. VE/CD to be offered in the third year as mandatory component but without any credit allocation.
2. To introduce General Core (GC) courses by reducing the number of GE courses. GC courses to be offered in first year of undergraduate programme, staggering the semesters of study for different departments.

□ **Part V:**
1. University requirement is 40 hours per year of STP comprising NSS/ NCC/ NSO/ Rotoract/YRC/other social service initiatives
   STP should be systematised, with particular attention to
     o Posting of attendance o Adequate coaches for all games
   - o Adequate time for all students in chosen activity o Greater accountability
   - o Framing of syllabus for all activities o Conducting activities separately for Shifts I and II
   - o To consider other forms of STP like mass drill, street theatre, mime, environment related activities
2. To consider setting up Centres for Service Learning and Social Actions

- • B.V.A. students to have Foundation English and Language in the fourth semester
- • B.V.A. students will be completing the four year programme in 2019. The Department of Fine Arts to plan curriculum revision along with the rest of the College, but may consider presenting for the first two years in 2019, and for the next two years in 2020.   □ Postgraduate programmes will have dissertation/project

The meeting concluded with a decision taken to present the proposed ideas to the Principal. The Academic Deans to outline proposals under each Part, along with positives / problem areas.

The date for the next meeting will be communicated by the Academic Deans.

The meeting began at 3.30 pm with a prayer by Sr. Susan Matheikal.

Proceedings:
Dr. Shiny John Vairamon, IQAC Co-ordinator welcomed the members of the Advisory Board and introduced the external member Dr. Fathima Vasanth, Deputy Principal, Loyola College. The other external members Mr. V. Suresh, Ms. Latha Pandiarajan and Ms. Rajyashree had expressed their regret in being unable to join.

The minutes of the previous meeting were perused and passed. Dr. Vairamon made a general presentation on the role of the IQAC and highlighted the various reports that have been submitted during this academic year. The highlights of her presentation included the facts that NAAC Accreditation has been extended for seven years up to February 20, 2021. The College has been granted extension of Autonomy up to2023. The College participated in the NIRF for the first time last year and has been ranked 30th out of 1495 Colleges (2018) in India.

Dr. Vairamon then gave an overview of all the faculty enrichment sessions that were conducted during the academic year. She also mentioned that sessions were conducted for IQAC student representatives and administrative staff. A workshop was conducted for the Support staff on wellness. Since February regular meetings have being held by the IQAC Steering Committee to study the new NAAC format.

During the academic year several colleges from across the country have visited the college to study the innovations and best practices of the College, namely Auxilium College, Assam and B.V.Raju College, Bhimavaram, A.P. The Mar Gregorious College of Arts & Science, Chennai Attended an orientation on Academic Audit at Stella Maris

The suggestions of the previous advisory committee meeting have been implemented this academic year and this was highlighted.

The research paper publications and presentations of the faculty were highlighted. The details of Faculty who have registered as Ph.D guides was presented. Several students have also been awarded fellowships at leading research institutes. The details of the various MoU's signed with foreign universities and Faculty and Student Exchange programmes were highlighted. Six International Conferences were organised this academic year and also several National Conferences and Workshops.

Based on last year's recommendation at the advisory board meeting, a session on Professional Ethics was organised and the resource person was Dr. V. Suresh, General Secretary, PUCL

The college also participated in NIRF and was ranked 30th in the rankings.

The floor was then opened for discussion.

Dr. Fathima Vasanth suggested that the plan of action report should be presented immediately after the perusal of the minutes of the previous meeting so that the steps taken to implement become clearer. She congratulated the IQAC coordinator for implementing most of the suggestions of the previous meeting. She said that the suggestions had been taken seriously and sincere effort had been made to implement maximum suggestions.

This was followed by a discussion on the NIRF ranking system which has become cumbersome and tedious to work on. Dr. Vasanth enquired as to how the college was dealing with it. Dr. Rosy Joseph said that the students of the Computer Science Department had developed a template and department faculty were updating information at regular intervals so the process has been smoothened out to an extent. Dr. Vairamon said several rounds of meeting of the steering

committee have been held to create a framework on dealing with the 7 parameters and developing quantitative and qualitative matrices, however the biggest challenge still remained collection of data.

There was a discussion on promotion and enhancement of the research culture on campus. Dr. Renuka Rajrathnam shared details of student involvement in research. She spoke of the time constraints faced by the faculty in doing research in a largely teaching oriented environment. Dr. Rosy Joseph spoke of how research scholars on campus have now been roped into teaching to facilitate more time for faculty doing research.

Dr. Vasanth shared the Loyola experience on promoting research. She said the institution had an exclusive centre to facilitate research and cash awards have proved to be a big incentive to promote research. Every department is asked to present research proposals which are judged and selected by an external board. The best proposals are selected and funded. The best work is awarded. This has created a healthy competition among departments to get their proposals selected and awarded.

Research proposals submitted by students get about Rs. 50,000/- as funding. For faculty 75% of the research cost is funded. Faculty are also given a citation which is presented to them at the Annual Research Award Function. These initiatives have greatly enhanced the research atmosphere in Loyola. Funds for research have been raised through industrial funding, alumni support and from the management.

To Dr. Sumitra Dawson's enquiry if Loyola has a central funding committee, the answer was in the negative, Dr. Vasanth said Loyola has a very strong alumni support. Suggestion was made by Dr. Rajrathnam that the college should identify corporates, whose CSR is towards promotion of women's education. She also said our MoU's with foreign universities should explore possibilities for promoting global research. Dr. Sandra Joseph said the Bank of New York, has partnered with the college in setting up a life skills centre which will be coming up shortly.

Dr. Mary N. L. suggested a brainstorming session with leading CEO's to discuss the possibility of research funding. Dr. Agnes Rozario suggested fund raising programmes to be spread across the semester to raise seed money for research. There was a suggestion that several companies would be happy to train students to be industry ready while they are in college itself, so this can be capitalized on to get financial support. There was s suggestion that all the students who get employed via the CGC should contribute their first month salary to the college.

Dr. Vasanth said that each department should be asked to submit at least 5 research proposals.

Dr. Vairamon enquired how Loyola was able to collect data on alumni employment and higher studies since this is required for NIRF ranking. Dr. Vasanth shared that on the day of Convocation the graduates are asked to report in the morning and all the relevant information is gathered, only after that are they given the token and gown to participate in the convocation.

Dr. Bernadine Joseph was of the opinion that all the discussions at the IQAC advisory meeting should be made known to the faculty and their feedback should be sought. Dr. Vairamon requested that all the members of the advisory board should co-operate in the spread of information to the faculty as it is very difficult for the IQAC coordinator to single handedly get feedback from faculty. The term of office of the present external members is coming to an end and suggestions are sought for new members.

The meeting concluded at 5 pm, Dr. Sr. Rosy Joseph, Principal and Sr. Susan, Secretary thanked Dr. Fathima Vasanth for her invaluable suggestions and also thanked the participating members. A special word of appreciation was accorded to Dr. Shiny Vairamon for all the efforts taken in steering the IQAC and organizing the meeting.

Academic Audit	The Academic audit helped to assess and evaluate the functioning on quality parameters and create own matrices for improvement. It also enabled in the process of curriculum design & restructure with special focus on outcomes based learning.
Environment Audit	A preliminary audit of the following were done as a prelude to Energy Audit, Water Audit and Waste Audit 1. Electricity consumption of the various buildings of the college 2. Waste segregation analysis to identify types of waste and types of bins for the same. The segregation processes at collection points were studied. 3. Utilization of the existing solar power generation was studied 4. The assessment of available biomass in campus was done. The maximum capacity of Bioenergy production from the in-house Biogas Plant was realised in the year 2018-19
Curriculum Restructuring for al	Revisions of all Programmes through Board of Study and was passed duly in the Academic Council Meeting.
B. A. English and Communication Skills	Implemented for the year 2018-2019
Two new programmes in B. Voc. –Banking, Financial Services & Insurance, Tourism & Hospitality	Approved for the academic year –2019-2020
M. Sc. Physics	Approved for the academic year –2019-2020
	International Conference on " Global Armed Conflicts and Peace Processes" in collaboration with the national institute of advanced studies and the Konrad adenauer stiftung
	International Conference : Towards a sustainable leadership development in a polarizing world: New Directions Jointly hosted by SMC & Trinity Western University, Canada
